[SOUTH AFRICA.]
FULL OF FLEES
ARE THE BOERS.
War Scribblers Report Them Active.

Boys Spreads His Net to Catch a Few of Them.
Meantime a Great Thinking is Being Kept Up.

Investment of Wepener Declared Absolutely Abandoned—Lack of Horses Prevents Advance on Pretoria.

Intervention Comp.

[A. P. NIGHT REPORT.]
 LONDON, April 17, 4:15 a.m.—[By Atlantic Cable.] Lord Roberts has spread his net far and wide to catch the adventurous commandos that have been making mischief in the south-eastern part of the Free State. The net has not yet been drawn in, but at the headquarters of Lord Roberts, the impression exists that the power of the Boers is decreasing.

The Daily News correspondent has been feeling to the southeast; a Standard correspondent reports them feeding northward; a Daily Telegraph correspondent says that some are going north and others south, while a Morning Post representative says it is not known what the Boers are doing. Evidently the feeling at Bloemfontein is that the dispositions of Lord Roberts are such as to enable him to concentrate a large force rapidly at any point. The Boers, being aware of this, are presumed to be thinking now chiefly of retreat.

The investment of Wepener, according to a special dispatch from Bloemfontein, has absolutely been abandoned. According to a Bethany dispatch, the Boers are unable to reach northward, because the British strongly hold all roads. Diverse reports come from Natal, one asserting that the Boers have retired beyond the Biggarsburg range, and another saying that some of them are close to Ladysmith.

London waits for some almost immediate announcement of news favorable to the British. District exists, however, as to any rapid, serious advance toward Pretoria, chiefly on account of horses, many of which are in the country of the Boers. Letters from the Cape say that three days' journey by rail is made in open trucks, that the arrangements for feeding and watering are inadequate, and that the unfortunate animals break down rapidly in consequence of these hardships. Despite the energy of its supporters abroad, the War Office foresees much difficulty in supplying the enormous number of horses required.

BOERS IN FULL RETREAT.
[A. P. NIGHT REPORT.]
 LONDON, April 17.—The Bloemfontein correspondent of the Standard, telegraphing Monday, says: "The

Boers are in full retreat from Wepener, hugging the Basuto border. The Basutos are marching parallel with them, along the frontier, watching carefully for the slightest encroachment."

STRAWS FROM LONDON.
WORST OF THE WAR IS OVER.
[A. P. DAY REPORT.]
 LONDON, April 16.—[By Atlantic Cable.] Conflicting reports as to the conditions at Wepener continue, but at this hour there is no definite nor important news from the front.

A Cape Town dispatch says nearly three thousand horses have been landed there since April 13, which indicates that every effort is being made to remedy the great defect in the British organization.

The chief Boer delegate, Fischer, accompanied by Dr. Leyds, president of the Dutch Cabinet today at the Hague, but the delegates of the Boers created little speculation in the British camp.

Frederick Villiers, veteran war correspondent, who arrived in London yesterday, is relying strongly upon an intervention. Great results are expected from the campaign of the Boers, and from the Presidential contest.

While the semi-blockade of Delagoa Bay has done the slightest harm to the Transvaal, it has enriched for sign firms at the expense of ruined British firms.

DOWN AT DEWDROP.
[A. P. NIGHT REPORT.]
 LONDON, April 17.—A correspondent of the Daily Telegraph at Ladysmith, in a dispatch dated April 15, says: "The Boers are down again at Dewdrop, east of Ladysmith."

FIGHTING WITH BRABANT.
[A. P. NIGHT REPORT.]
 BRABANT, Friday, April 13.—Fighting with Brabant's Horse at Jannetburg Drift.

Boers engaged troops sent from Bloemfontein to Brabant's assistance. There was a sharp battle, reports say, the column advancing toward Brabant, without decisive result. All the foreign correspondents are in the town.

BLEW UP THE COLLETTES.
[A. P. DAY REPORT.]
 LONDON, April 16.—A Ladysmith special, dated April 14, says that the Boers blew up three important railways near Wessels Nek, completely destroying the Boer line.

BOERS EXAGGERATE NEWS.
[A. P. NIGHT REPORT.]
 LONDON, April 17.—A dispatch to the Times from Mafeking, dated April 16, contains the following story: "After Col. Plumer's repulse, commandant Symman sent a message inquiring about the dead and wounded, but when the ambulances appeared the Boers refused to allow them to be taken. It was discovered, however, that the Boer reports of the ex-

tent of the British casualties have been greatly exaggerated."

FUTURE OF MINING.
BEING CONSIDERED IN ENGLAND.
[A. P. EARLY A. M. REPORT.]
 NEW YORK, April 16.—A dispatch to the Tribune from London says that while there is a complete shrinkage of war news there is much quiet discussion among South Africans in London respecting the future of mining industries after the close of hostilities. Mr. Rhodes has been conferring with Alfred Beit and other large capitalists, but his views are not known. Mine owners are reticent from a good cause, for they know from the experience of the Chancellor of the Exchequer and the tone of the press, that there is a deliberate intention of bleeding the capitalists far as possible in the future. There are only two interests in the Dutch Republic which can be relied upon when indemnities are assessed for the cost of the war, and for damages to property in Natal and Cape Colony. These are the railways and mines.

The railway in the Free State is one of the most important in the world. It has been declared, no longer exists. A portion of it, with rolling stock, has been seized by the British army, and as Gen. VICTORIA, B. C.

Labor Leaders Agitating Over the Influx, but the Provincial and Dominion Parliaments are Powerless to Stop It.

Contract-labor Laws the Only Restriction on Their Entrance to this Country—Immigration Figures Being Watched.

Mythical San Francisco Suicide. Varsity Estate Suit—Ball of Fire Seen—Jailbreak Falls at Bedding.

(A. P. EARLY A. M. REPORT.)

VICTORIA (B. C.), April 16.—Japanese are still pouring in here. The steamer Rio Jun Maru brought 800, and the Hsiao Hsiao Goodwin 1100. The steamer Miles is expected today with eighty more, and the Bremer, at the end of the week with over 700. The labor leaders are agitating against the great influx of orientals, but it is said the provincial and dominion parliaments are powerless to enact legislation to keep the Japanese out, for the imperial government refuses to allow the passage of legislation which will affect its friendly relations with Japan. Martin, the British Columbia Premier, in a speech last night, said that if restricted, he would not see that legislation was passed restricting this immigration.

Tokohama, a Japanese, brought by the steamer Rio Jun Maru indicates that the Japanese are taking a hand in the shipping of a large number of Japanese laborers to this country. The Japanese Mail says that destitute laborers are not allowed to emigrate to Tokohama, and Tokyo, but are sent across the Pacific as fast as possible.

LAWYERS ON THE SUBJECT.

(A. P. DAY REPORT.)
WASHINGTON, April 16.—Up to this point nothing has been done by the Washington authorities looking toward the restriction of immigration of Japanese into this country, beyond the application of the contract-labor laws. The enforcement of these laws is entrusted to the customs and treasury departments, and as far as is known, they have not found any movement toward the restriction of immigration of Japanese into this country. The Japanese are taking a hand in the shipping of a large number of Japanese laborers to this country. The Japanese Mail says that destitute laborers are not allowed to emigrate to Tokohama, and Tokyo, but are sent across the Pacific as fast as possible.

CAMPAIGNING IN THE PHILIPPINES.

A book of over 400 pages, containing an illustrated historical account of the operations of American forces in the Philippine Islands. Representatives of the publishers of this work were sent to Manila especially for the purpose of gathering and compiling data for the book.

It is a clear and straightforward semi-official statement of facts gathered from authoritative sources, and from personal observation, and the hundreds of illustrations accompanying the text are from photographs taken on the spot. Nothing yet published gives such a comprehensive and accurate record of the operations of American troops in the Philippines. The book contains over 400 pages, and is printed on heavy plate paper, bound in leather, with gilt edges, or with cloth binding and plain edges. Testimonials highly commending the work have been received by the publishers from many prominent officers in the Eighth Army Corps. It is universally commended by them as a graphic, accurate and truthful history of the Philippines campaign. Recognizing the real merit of this work, and the general interest which all patriotic Americans have in the makers of history, The Times has made arrangements by which it is enabled to offer this valuable book to subscribers only on very favorable terms.

OUR OFFER.

The cloth binding with plain edges is offered free with one year's prepaid subscription to the Daily and Sunday Times, or for \$2.50 if sold for cash. The full leather, gilt edge volume is offered to annual prepaid subscribers to The Times for \$2.50 in cash, or, if sold outright, for \$3.50. Sample volumes of the book will be sent to agents of The Times in all the principal towns in Southern California, and all those who wish to avail themselves of our special offer for this book may call on our agents and inspect it before ordering.
